

# Rain Gardens

The key to managing your stormwater and protecting Puget Sound

## FREE WORKSHOPS

Presented by Stewardship Partners.  
Advance registration required.  
(Suggested donation is \$10.)

- 
- 02/25 Redmond
  - 03/18 Bothell
  - 03/30 Seattle
  - 04/01 Mercer Island
  - 04/20 Lake Forest Park
  - 04/29 Bellevue
  - 05/18 Duvall

Soak up rainwater from downspouts, driveways, and sidewalks!

**Puget Sound  
Starts Here**

## WHAT IS A RAIN GARDEN?

A rain garden is a shallow depression in a yard planted with a variety of flowers, shrubs and grasses that “don’t mind getting their feet wet.” Learn how rain gardens help soak up rainwater from downspouts, driveways, and sidewalks, while protecting our local waterways. When planted with the right types of plants, rain gardens also attract birds, butterflies and bees.

## AT THE WORKSHOP

You’ll receive a FREE rain garden manual and additional materials. You can also start designing your own rain garden during the class! There will be opportunities to gain further hands-on experience by helping create rain gardens later in the summer.
